NorthScope

## Introducing NorthScope ERP Software for
ALASKA SEAFOOD PROCESSORS

Generic business software doesn't understand you or your business. We provide NorthScope ERP software and step-by-step guidance for Alaska Seafood Processors, giving you the tools to build the business you've always wanted.

eLandings Downloads

Say Goodbye To...

- ☒ Juggling multiple systems
- ☒ Inefficient Fisherman Loan management
- ☒ Lack of data analysis
- ☒ Confusing reports & Fisherman Statements
- ☒ Manual calculation of Fish Ticket Taxes & Premiums
- ☒ Manual Fish Ticket price adjustments

Say Hello To...

- ☑ Features built specifically for Alaska Seafood Plants.
- ☑ An easy-to-use system built on modern technology.
- ☑ A fully supported system that grows with your business.
- ☑ Directly importing your eLandings Fish Tickets.
- ☑ System access from wherever you are.
- ☑ Fast and easy implementations.

The NorthScope Plan

We meet with your team to identify your pain points to understand what's important to you.

We create a project plan that will take away your pain points and is tailored for your success.

We configure your system with your data and hold your hand through training, launching, and beyond.
